Technical Experience

Backend	Frontend	Libraries/Frameworks	Tools
PHP, MySQL, MongoDB, Node.js	HTML5, CSS3, JavaScript	Express.js, Pug, Passport.js, jQuery, Bootstrap	Atom, phpMyAdmin, WAMP

Work Experience

Onstad's Insurance Agency - Front-End Developer	San Ramon, CA 2017
Architected an authenticated intranet to be deployed for remote employees. Built on an Express using Passport with bcrypt and MongoDB for password storage and encryption. Employed Pug to componentize headers and footers as well to power basic 'for' loops. Re-branded the intranet for a clean user experience while maintaining simplicity for future maintenance and updating. Assisted the Customer Service Representatives with various administrative tasks.	
Narvar Inc. - Implementation Engineer - Contractor	San Francisco, CA 2017
Contracted to resolve a backlog of projects including product launches and outstanding page edits for shipping tracking pages. Collaborated with fellow implementation engineers to create a web app to assist future translations for international locales and correspondence with clients utilizing JavaScript, React, Node and Mongo. Cooperated with the Customer Success team to accurately create the webpages our clients had envisioned - interpreting client feedback, while acting as a liaison to the design team to create assets and full page mocks.	
Onstad's Insurance Agency - Web Developer	San Ramon, CA 2012 - 2017
Created all new responsive, mobile-first company intranet, with a minimally customized company branding theme. Developed with PHP, Bootstrap, and jQuery for ease of maintenance for a company without IT or engineering departments. Acted as assistant project manager for a variety of projects. Orchestrated massive upgrade of internal agency management system by organizing and migrating thousands of client and business records. Cross-verified the integrity of records to mitigate issues with data migration. Aided different departments answering phones, scanning documents into company database, and performed other administrative duties.	
San Francisco State University	2013 - 2016
Bachelor's degrees in History and Political Science, Minor in International Relations	
Akita International University, Akita, Japan	
International Exchange course for International Relations, Business, and Japanese	2014 - 2015
